

hydracial™

HydraFacial™ is the only hydradermabrasion procedure that combines cleansing, extraction and hydration simultaneously, resulting in clearer, more beautiful skin with little-to-no downtime. The treatment is soothing, moisturizing, non-invasive and generally non-irritating. As with most procedures, visible results from HydraFacial will vary from person to person.

pre-treatment

AVOID aggressive **exfoliation, waxing**, products containing **acids, Retin-A** for a minimum of **two weeks pre-treatment**.

what to expect during + immediately after treatment

You may experience **temporary** irritation, tightness, or redness. These are all normal reactions that typically resolve within 72 hours depending on skin sensitivity. You may experience tingling and stinging during the treatment area. These sensations generally subside within three hours of treatment.

Contact us immediately if any unusual side effects occur or if symptoms worsen over time. Client experiences vary + some may experience a delayed onset of the previously mentioned symptoms.

next steps

You will likely see results immediately after treatment and your skin will feel **smooth and hydrated** for one to four weeks. For improved, longer lasting results, consider take-home products and monthly HydraFacial treatments.

- **Avoid** direct **sun exposure** and use a minimum of **SPF 40 sunscreen** as treated area will be susceptible to sunburn, sun damage + hyperpigmentation
- **Continue to avoid** aggressive exfoliation, waxing, acids + Retin-A products
